## DENTAL ACT UPHELD

"No person has the right to demand that he or she be employed. The board is responsible for its action only to the people from whom, through the mayor, the members have received their appointments," the decision reads.

On the whole, when the wretched weather and the difficulties of terrain are considered, the day's work is regarded as most satisfactory. It is believed that it paves the way for more rapid progress in the near future.

Increase Production, Add to Efficiency and Help Your Government, Hale Holden Says.

Railroad Chiefs Seeking Urgent Resources of Section Work—Men Are Scarce.

"Increase Your Production of all Farm Products," "Declare for Universal Military Training," and "Help Your Railroad to Do Its Share in the Struggle" are simultaneous appeals by the C. B. & Q. to its employees. The local yards, offices, and all branches of the local organization have been swept by the patriotic policy of the "Q" officials in the present emergency.

President Hale Holden this week issued placards in the form of a personal letter, which have been posted by the various department heads so each of the 56,000 employees in the "Q" system can read them.

It is pointed out in the letter that the railroad chiefs had adopted resolutions that decided to back up the president and the nation to the utmost of their resources in service, and asked the co-operation of each employee to "do his little bit to make possible the successful administration of this duty."

More Efficiency Urged.  
"The men required for the army and in the production of munitions and supplies will limit the number of available for the service and this at a time when more service will be required than ever before. It is therefore imperative that each employee do his utmost in the scheme of co-operation with the government so that the railroad adopted the notice reads: 'The agriculture department of the C. B. & Q. simultaneously has distributed literature, bordered with American flags, admonitions to its employees and to farmers to take an active part in the intensive production which the United States must now engage in.'

Appeal for Food Conservation.  
"The success of our country in this war depends upon agricultural production. Let us all do our part. Our agricultural department is organized to aid you. We can help you to get good seed, test for germination and treat for disease. We will gladly give you the benefit of our organization and experience."

"Our country needs more foodstuffs—no danger of over production, but a great danger of under-production, if before us. Supplies of foodstuffs on hand now are limited. Our winter wheat crop is greatly damaged. Reports indicate a reduced potato acreage. Farm labor will be scarce and hard to get. The demand for all farm products will be great and prices will be high. Do your part to supply this need. Increase your acreage and production per acre of corn, potatoes and grain."

The appeal is signed by J. B. Lamson, agricultural director of the C. B. & Q., and O. H. Liebers, agricultural agent for the lines west.

Circulars are also being distributed urging citizens to write the senators and representatives endorsing the universal training legislation now before the congress.

Call Off Keokuk Fair.  
[By Associated Press Leased Wire.]  
Keokuk, Iowa, April 17.—The Keokuk city council, acting in conjunction with a committee from the local commercial organization today decided not to hold the Keokuk fair festival "for patriotic reasons." The festival had been largely attended by residents of southeastern Iowa for many years.

A statement issued by the council said: "All contracts for the annual fair festival have been cancelled. The council feels that in this time of national crisis there are many other channels to divert the money which would be spent on the celebration."

## Amazing Power of Bon-Opto To Make Weak Eyes Strong

Doctor Says It Strengthens Eyesight 50 per cent in One Week's Time in Many Instances

### A Free Prescription You Can Have Filled and Use at Home

Victims of eye strain and other eye weaknesses and those who wear glasses will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after wearing glasses for 15 years, "I could not see to read at all. Now I can read everything without my glasses, and my eyes do not hurt any more. I feel like a new man." Another says, "I have been suffering from eye strain for several years. I have worn glasses for several years, but for distance and work and without them I could not read even my own name on an envelope or the typewriting on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them if

## GERMAN YEARNING FOR PEACE IS INCREASING

The Hague, Tuesday, April 17, via London, April 18, 12:05 p. m.—How urgent is the yearning for peace among the German people and how great is the increased strain just imposed on them in consequence of the reduction in the bread ration may be judged from the exhortations and the pictures of woeful alternatives published in provincial newspapers on the inauguration of the curtailment of the bread supply.

The Courier of Hannover, for example, represents that a quicker but unsatisfactory peace would not lead to a better food supply. The people are told that Great Britain, France, Italy and even the United States are reeking with a world famine for the current year, and that in case of a premature conclusion of peace the demands of these countries for their own needs would prevent the supplying of Germany with foreign foodstuffs.

The Courier portrays the British people as paying the highest grain prices of a century and declares that the Germans are situated more favorably than those who planned to starve them, not being menaced by a bad world crop and rapidly sinking ship tonnage. If, however, the blockade of Germany should succeed through lack of economy, the newspaper says, "our people would have not only a time of bitter hunger but a period of the lowest wages and the most painful indifference. Then while France, Italy and Russia carried off Alsace-Lorraine, Trieste, the Trentino, Constantinople and big Austro-Hungarian provinces as the price of victory, Great Britain will undertake the long planned annexation of our economic riches. Bread would be dear and wages low for our entire laboring population. We must therefore muster all our strength, clinch our teeth and, remembering the sacrifices and sufferings of our menfolk in the field, hold out and take up this new food sacrifice."

## GUARD ARMY HEALTH

[By Associated Press Leased Wire.]  
Springfield, Ill., April 18.—In order to remove every particle of danger of infection to Illinois troops mobilized here, Adjutant-General Dickson today issued an order to all officers at recruiting stations to make more rigid the medical examination of recruits with reference to communicable diseases.

The order resulted from the discovery yesterday of two cases of scarlet fever and two of measles at Camp Lowden where the Sixth Illinois Infantry is quartered. No new cases were reported today.

"There is no occasion for alarm," General Dickson said. "We are merely taking precautions."

Isolation hospitals have been established at Camp Lowden.

Dr. C. St. Clair Drake, secretary of the state board of health, was preparing today to issue a warning to Illinois citizens that quarantine laws will be enforced in every city of Illinois.

Unexpected Result in Vote at DeKalb

The faction led by County Judge Pond of DeKalb county got a most unexpected defeat in Tuesday's election when Frank Waring, the candidate of the young men republicans, was elected over Mayor P. N. Joslyn by a majority of 600.

There was a primary at DeKalb for the purpose of nominating candidates. The primaries are usually phantom affairs with no candidates nominated. About 10 young men wrote the name of Frank Waring on the ballots and he got the republicans elected. He had not even been consulted about the matter. After he was given the surprise nomination the young men asked him to run. He agreed. Realized signing at the election he carried four aldermen with him.

## CANNED GOODS ARE SOARING

Along with the soaring price of canned goods, potatoes are at 15 cents a pound today. This is at the rate of \$9 a bushel and is for new potatoes and reports of sales were as hard to find as needles in a haystack. Old potatoes sold at \$1 a bushel and will probably go higher. Grocers said they did not look for any raid on canned goods here because fresh vegetables are arriving now and there would be little saving in storing up canned goods. The buying of large quantities of canned goods now is into the hands of the food speculators. It was stated as the excess demand will force the price up. One grocer said most of his customers stocked up on canned goods last fall thereby profiting. The best old potatoes are coming from the west now, the southern crop not being up to the standard potatoes are 10 cents per pound. Following are some prices quoted today: Bermuda onions, 15 to 18 cents per pound; all standard grades of flour from \$3.50 to \$3.80 per sack; sugar, nine pounds for \$1 straw-berries, 15 cents per pint; small, choice pork loins, 40 cents per pound; October cream cheese, 40 cents and new cream cheese, 35 cents. Eggs sold in Aurora today below the market price of 35¢ cents in Chicago. They were 34 cents here. There was no change in tea or coffee prices.

## GRAIN RATES RULING

[By Associated Press Leased Wire.] Springfield, Ill., April 18.—The grain rates prior to the taking effect of the public utilities commission act, by the railroad and warehouse commission, are still in force because the railroad and warehouse commission had no power to suspend such rates, the supreme court held today. The public utilities commission suspended rates of the railroad and warehouse commission when the former body took control and the railroad appealed to the circuit court which sustained the commission. The judgment of the Sangamon county circuit court is reversed. The supreme court suggests that the proper practice is to treat the petition of the farmers against the rate increase as a protest and to hear the case further.

## NICARAGUA ALIGNS HERSELF WITH AMERICA

[By Associated Press Leased Wire.] Washington, April 18.—Nicaragua has aligned herself with the Latin-American nations endorsing the entry of the United States in the war with Germany. The foreign office at Managua notified the state department today that the government here sympathizes with the United States in its action but made no mention of neutrality. With the exception of Costa Rica, whose new government offered the use of her ports and territorial waters to the American navy, Nicaragua is the first of the Central American group to define its attitude.

## Fire at Columbia, Mo.

[By Associated Press Leased Wire.] Columbia, Mo., April 18.—Four buildings in the business district of Columbia were destroyed by fire today. The loss is estimated at \$100,000. The insurance is \$60,000.

The Calumet club held one of the most interesting meetings of any club in town yesterday at the home of Mrs. Roy Benton in Pennsylvania avenue, for the time was spent in discussing of rotation of garden crops, that is, in what way to plant a small garden to have one crop of vegetables coming on as a preceding crop was about gone, and many practical ideas were brought out. It was also planned to have a picnic at City park during the summer. The next meeting will be held with Mrs. Bert Watkins.

The little son born last evening to Mr. and Mrs. Joseph A. Reising of North avenue has been given the name Joseph Alfred Jr. The little lad is the third in this branch of the Reising family to be given the name Joseph—the first having been the well known merchant, uncle of J. A. Reising.

## How's This?

Corns Lift Out  
With Fingers—No Pain!

Thanks to a new discovery made from a Japanese product your foot troubles can be quickly ended. Ice-mint or foot powder preparation is called is said to relieve on hard corns, soft corns or corns between the toes so that they can be lifted out easily with the fingers. It's wonderful. Think of it; only a touch or two of ice-mint and real foot joy is yours. There is not one bit of pain or soreness when applied to the corn and it doesn't even irritate the skin. If your feet are inclined to swell or puff, or if you have a redness or bleeding toes, it will draw the inflammation right out and quickly heal the sore and tender places. It is the real Japanese secret of a healthy little foot and is greatly appreciated by women who wear high heel shoes and by men who have to stand on their feet all day. Try it. Just ask in any drug store for a few cents worth of ice-mint and learn for yourself what solid foot comfort really is. There is nothing like it.

## SCHOOL GARDENING PLANS COMPLETED

Each School to Have Own Sectional Committee to Supervise the Work.

Prizes to Be Given for Best Products—City to Do Flowering—Seeds Sought.

Plans for the "better gardens" contest for school children to be held under the auspices of the city health department, Y. M. C. A. and W. C. A., were completed at a meeting yesterday afternoon at the Y. M. C. A. Another meeting is to be held this afternoon.

It has been decided to give prizes to the children for both spring and fall planting. The first judging will be done on May 20. The principal of the school will be the principal of the school. Arrangements are now being made to secure vacant lots. The city will do the plowing.

Each School Given Committee. A committee will be appointed in each school in the city to have charge of the work. One of the principal of the school, a member of the Parent-Teacher club and one of the teachers. The committee will have complete charge of the work in each district. Property owners having lots which they desire to donate can call on school principal to secure seeds. Dr. George B. Schwachigen, city health commissioner, said today. "Three persons have offered to donate. Two of these are concerns in the seed business. We are expecting a supply from the German company. We are sure that there is a big shortage but are sure that if our congressman can possibly do so he will take care of us."

Most residents of the city have now received seed from Copley altho there has been an unprecedented demand. The supply ran out weeks ago. The Aurora congressman each year has gotten much more than his allotment by seeking the supply which congressmen from great cities did not care for and did not seek.

Girls to Plant Flowers. It is the plan of the organization in charge of the contest, here to have boys do the vegetable gardening. There will be a prize for the best flower gardens. Girls of the Y. W. C. A. will be urged to enter in this latter contest.

## FOR DIAMOND THEFT NAB EXPRESS CLERK

John Gilbert, Former Aurora Night Agent for Adams Co., Taken in St. Louis.

John Gilbert, former night clerk for the Adams Express company here, was arrested yesterday at St. Louis on a charge of larceny. He is charged that he stole diamonds and other jewelry valued at about \$600 out of the safe in the local office three months ago.

J. P. Gilbert surrendered to the St. Louis, Mo., police a few days ago and then had unusual experiences with the police.

Sheriff Richardson was notified that Gilbert had surrendered to the St. Louis police. The sheriff sent Deputy Sheriff Claude Poole to St. Louis. The deputy sheriff told the St. Louis police he would take Gilbert away the next morning.

When Poole called at the jail yesterday morning, to get Gilbert, he was astounded to learn that Gilbert had been taken away by special agents for the Adams Express company, who left St. Louis on the 7 o'clock train.

Poole caught the 8 o'clock train and overtook the express company agents and Sheriff Richardson who hurried from Geneva to Aurora. The sheriff gave the Adams agents a lecture they won't soon forget, and took the prisoner away from them. The express agents had no papers to take the man. Gilbert is now in the county jail at Geneva.

## NO "PAUL REVERE" DAY IN THE AURORA SCHOOLS

"Paul Revere day," or "Wake-up America day," as the national patriotic school day is termed, passed without observance in the Aurora schools. The general rush of school affairs was given as the reasoning for the overlooking of the day. Paul Revere day is the anniversary of the defeat of the British at the battle of Lexington.

The schools are already concentrating their efforts on the planting of gardens and figured that one thing at a time was enough in the schools. "We did not make an observance of the day," said Supt. C. M. Bardwell of the east side school. "We are working with the children to have them plant gardens. Our aim is to make every day a patriotic day in the schools and we could not plan anything more at the present time."

Said S. K. McDowell could not be reached. Miss Nan Hill, principal of the Oak Park school, said no demonstration was planned for the west side schools. "We haven't time to observe every day that comes along that some things should be observed," she said.

## N. AURORA'S VETERAN BOARD HEAD DEFEATED

Joseph Stewart, village president of North Aurora for so long that the village was sometimes called Stewartville, was defeated for re-election Tuesday by Joseph Baker, whose majority was 13. William Glines, village clerk, John Schurtz, Fred Pryden and Herman Tasky, members of the village board were re-elected without opposition.

## HONOR REV. MR. BACKUS

The Men's and Excelsior classes of the First Methodist church Sunday school surprised the Rev. and Mrs. J. L. Backus last evening in honor of the fiftieth anniversary of their wedding. Mr. and Mrs. Backus spent the evening at the home of their daughter, Mrs. Phineas Bartholomew, at Loveland, and were about to leave for Aurora when the automobiles began to arrive. In behalf of the two classes, Rev. Charles Bready presented Mr. and Mrs. Backus a purse of gold. Readings appropriate to the occasion were given by Mrs. Beale Piffner and Mrs. W. W. Clark. A luncheon was served.

The thought was expressed by many present that it was difficult to associate the thought of fifty years of married life with the youthful appearance of Mr. and Mrs. Backus, both of whom are in the best of health.

A pleasant feature of the day was the serenade given to them in the morning by the neighbors in the immediate vicinity of the Bartholomew home, who also left at the occasion. Any number of relatives came in also during the day, much to the surprise of the guests of honor.

## POLICE CANNOT KEEP MONEY SEIZED IN RAIDS

[By Associated Press Leased Wire.] Springfield, Ill., April 18.—Police who raid gambling dens are without authority to keep money they collect, the supreme court held today. The case at issue was that of Kearney and Becker against Webb, appealed from St. Clair county.

A boy who can talk louder and longer when he's got the wrong side of an argument than anybody else should follow the law profession, the pessimist says.

## WEDDED SLACKERS BILL IS PREPARED

Men of military age who have married since a state of war against Germany was declared will not escape their obligation of military service under a war department policy formally announced today. The dealing with the children to have them that all men married since the outbreak of war will be treated upon the same basis as unmarried men in so far as their military obligations are concerned. It is desired that the utmost publicity be given by the press to this announcement.

The department was moved to take this action in order that all men should understand exactly what is contemplated in the organization of an army to fight Germany. It was desired that these should arise no question of slackers on the score of marriages contracted since the outbreak of war, with the possible construction that declared marriage in any case was hastened in order that military duty might be avoided.

## Can Any Kidney Medicine Equal This Record?

I heartily recommend Dr. Kilmer's Swamp-Root as a valuable and very commendable preparation. It is a remedy old in this trade and today enjoys a splendid demand. I have used it myself for too frequent desire to urinate and obtained the most beneficial results. I do not know of a single instance where it failed to accomplish good results.

Very truly yours,

## SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called frezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out. This drug is a sticky ether compound, but it dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of frezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels. —Advertisement.

## Aurora Society News

A large attendance of mothers at the Oak Street Parent-Teacher club was rewarded with a remarkably well written paper given by Mrs. Ida Sawyer. Mrs. Allen, who in addition to brains and real literary ability, has also the method of delivery which is most convincing. "One of the best papers I have heard in a long time," said one mother who regularly attends the women's club. Mrs. Allen (of her own) spoke upon "Good Reading for Children," interpreting her sentences with charming bits from the pen of Riley, Stevenson and other writers who understood real human nature. Mrs. Allen favors fairy stories (think the Lord there is at least one sane woman in the world, who doesn't think teaching children fairy lore is teaching them to lie); she favors the old established fairy stories, and Eugene Field and the great writer of "Treasure Island," who wrote of man from Indiana, who wrote some things just for little children because he loved them so. She advocated stories which teach the child consciously many scientific truths, tales of democracy. Mrs. Allen declares the modern tendency of the child to hang up the hat, say "good-bye" and run down to the picture show, but she wants to cultivate the use of good books and magazines. (This goes sound amusing to a woman brought up on a diet of St. Nicholas, Mother's Companion, Harpers Young People and forty seven others. Do not the parents subscribe for these magazines nowadays? If not, if they cannot afford that the child race away to see some of these silly movies where the noble young girl roasts etc.)

Altogether Mrs. Allen's paper was pretty well worth hearing. The children of the school, directed by Glen C. Stables, the capable music director of West Aurora, repeated the songs given at Sylvanville recently. While George Edmunds of Room 14 gave a violin solo.

**The Woman's Club.**

Little by little names are drifting in for consideration at the annual election of the Aurora Women's club. The last name to be heard was that of Mrs. Edward A. Ellis, who is mentioned for the office of recording secretary, for which office the name of Mrs. Earl Van Buskirk was also mentioned. Mrs. Frederick Jackson, Mrs. D. B. Pierson and Mrs. J. C. Walters are all names heard in connection with the vice presidency. This for and against a club some proposition appears to be discussed openly at almost every gathering of women which includes club members. It seems to bring out several phases—those who want the club house at once on the lot on the island—those who want to hold the lot and build later; those who want to sell the lot now and those who want to sell whenever any money can be made. Then there is the element which wants to keep all money made for an addition to the club house fund, those who want to keep the major part of such money and the others who want to give all money made to philanthropic interests—the City hospital, the Old Ladies' home, the juvenile home, etc., etc. Then there is the element which discusses a plan which includes taking up quarters in the new hotel. On the other hand it is said that the hotel management has said that quarters in the hotel would be out of the question. There is an element which would combat this hotel proposition, even tho it should materialize, because the new hotel, will, like most hotels, have a bar and feel that when this bar is crossed, they do not want to be around to do the morning. Another element has stated that it would quite as soon sell the school for the passing over the bar in the hotel as corn beef and cabbage in the Y. W. C. A. And there you are. It is said that this matter is to be threshed out once and for all in the future. The last shot from the club gun is a rumor that many members object to a permanent club home committee.

**Supreme Officers Here.**

They will be entertained at a dinner at Raymond's and later a large mass will be initiated at a meeting in the Maunabo hall followed by refreshments. **Talks of the Soil.**

County soil expert, Professor Read-Dalmer, talked in a most interesting way yesterday before the Illinois Avenue Parent-Teacher club concerning soil conditions and best seed selection. He strongly urged care in gardening, referring to the desirability of intensified farming—

## PURITY AND POWER

Necessary to Overcome Impure Blood and Weak Conditions.

The recent trying weather, exposure to storms, the grip, hard colds, pneumonia, fever, diphtheria, and other blood-poisoning, prostrating diseases leave the whole system subnormal—below par—weak and slow—blood depleted and thin, with that tired feeling, poor appetite, indigestion, digestive power or almost none at all.

The ideal treatment is: Hood's Sarsaparilla—to be taken before meals—to purify the blood and expel poisons, and Pepsogen Pills—to be taken after meals—to put power into the blood, give strength, increase red corpuscles and restore normal health-tone.

Hood's Sarsaparilla has for 40 years won and held the favor of the people. Pepsogen Pills are named from their action and from the fact that they give good blood and stomach tones. Be wise and begin on this sensible, reliable course of medicine today.

necessitating fertilization. The speaker stated that the best fertilizer known is from the stable and that too much of it cannot be used in vegetable raising, as it is only when vegetables grow quickly, as the result of rich soil, that they are crisp and fresh. (Ever try to eat a radish which had been weeks in growing—if so you know for staying qualities it beats an all-day sucker.) The seeds in order of planting as to seasons were mentioned, the entire talk being followed by a discussion.

The children of this school are looking forward to the annual exhibit of the middle of next month.

**Red Cross Meeting.**

A fairly good attendance marked the meeting of the Red Cross Shop at the Y. M. C. A. building yesterday. So keenly interested are all women becoming all over the city in the work that it is with pride that it is noted that Aurora women attend well despite many other duties. Today Miss Louise Aldrich and Mrs. Sarah Frits went to Yorkville to assist the down-river women in the formation of a Red Cross Shop.

**From the West.**

Mrs. C. E. Francis and Miss Martha Ruddy are among the Aurora people who are at home again after an ideal winter in California. Hill, author of Hill's Compendium and other volumes.**

**K. C. Party Last Evening.**

The young people of the K. C. will have a dancing party some time in May.

**The Rose of Plymouth Town.**

The junior play given in West High auditorium Wednesday of next week by the junior class, is said to be extremely entertaining. Miss Lucia Goodwin is coaching the players. Two performances will be given, one in the afternoon at 3:30 o'clock, and another in the evening. At this is the first play given by a West High junior class, it is hoped that the young people may be rewarded by a large audience.

**A Little Luncheon.**

**First of Series.**

"The mayor will pick out the best man in the council for chairman regardless of the attitude on the election," City Attorney Albert Kelley said.

"We want harmony in the city council and in order to have harmony we must place the men on the committee whose they can do the best work. There will be some changes in the committee but what they will be I cannot say at this time."

## In "Hit the Trail Holiday"

"DON'T YOU BELIEVE HER, BILLY, SHE MADE IT HERSELF."

## RELIGION SEIZES "BEST BARTENDER"

He Weds Minister's Daughter and Turns Evangelist and Pleases Play Audience.

"Hit the Trail Holiday," Cohan Offering, Has Good Presentation at Fox Theater.

"Billy" Holiday was as much in evidence in "Hit the Trail Holiday," George M. Cohan's latest comedy, at the Fox theater last night, as the melancholy Hamlet in the famous Shakespearean work. It was Holiday's show and Frank Otto in the title role "got across" in great style. The rest of the cast was more than adequate.

Clever and natural, the not a "riot of laughter," the show was one that kept the audience in a satisfied contented chuckle most of the evening.

Billy Holiday was the best bartender on all Broadway, who was hired by a brewer to take charge of the bar in a new hotel out in the tall grass region of New England. But Billy never got to his job, instead of becoming lord high dispenser of drinks in the "Johnsburg House," he became evangelist and a temperance worker and the husband of the minister's daughter, and other things not commonly expected of bartenders.

Miss Augusta Gardner was a very neat minister's daughter. Edith Holden and Harry Hubbard was good in the part of the brewer's son, Dean Granger; Chauncey Causland as Jed Cusick, the spokesman, was a big laugh.

Arthur V. Gibson, who hailed from Batavia was a proper sort of a regular. His presence and that of many of his former townspeople in the audience didn't save the town, they had a lot of fun in anyway along toward the last of the final act.

After settling the brewery in Johnsburg and making the town dry and most of it rich in one way or another, the play closes with "Billy" Holiday, a successful, if not too sincere an evangelist, mourning the fact that he must make his next stand in Philadelphia, but gleefully awaiting his return, as a temperance worker, however, to the Great White Way.

Campaign to Raise \$100,000 for Aurora Hospital Headquarters Opened Down Town.

U. S. to Call on All Such Institutions for Full Preparation to Care for Wounded.

"Aurora 100,000."

This is a new number in the telephone directory. Call it and you will be connected with a busy office. It is the headquarters of the Aurora hospital financial campaign and the preliminary work of organization for the \$100,000 campaign early in May is being undertaken in the rooms in the Coulter block.

"What effect is the war having upon financial campaign undertakings throughout the country?" was the question asked of Campaign Director C. W. Lee this morning. "It is having a stimulating rather than a deterrent effect," responded Mr. Lee. "People realize that hospitals must be maintained at the highest point of efficiency during the strenuous times ahead and shortly the government will call on every institution to be prepared to organize and meet every emergency. The citizens of Aurora have reason to be proud of their new hospital and, for its size, it is at present equipped as finely as any hospital in the country. The great need for such an institution is shown when the records disclose the fact that three times as many patients are being cared for today than were a year ago in the old hospital."

"There is no greater charity, and from many talks with business men during the past week, I believe that your people will rally to the support of the campaign."

Nothing seemed to get me up or give me strength until I learned of Dr. Pierce's Favorite Prescription. A neighbor dropped in and told me what 'Favorite Prescription' had done for his wife, so I stopped the doctor's medicine. After using the 'Prescription' I gained very fast. The second bottle completely restored my strength, and my trouble has never come back. Since I used 'Favorite Prescription' I have weighed at times over 150 pounds. It gives more strength than any other remedy."

**Black Squegee Tread Red Side Walls**

**"Talking about Non-Skid Tires"**

It seems to us that some tire manufacturers just cut out the raised tread pattern on their tires with a jig-saw at random; while others figure out the tread formation as common sense directs.

The Diamond "Squegee Tread" is surely a "reason why" tread. Look at the cross bars. When the weight of the car rests on them, they just naturally get a TOE HOLD on the pavement and stop forward slide.

Then look at the longitudinal bars. They are continually in contact with the pavement and not only stop side skid ALL THE TIME but roll along as smoothly as a plain tread tire.

So if you want a real non-skid tire, we'll sell you a Diamond at its "Fair-List" Price.

## LEFT HANDERS ARE POPULAR

Good Southpaws Are Scarce in Both of the Major Leagues This Season.

## THE RECRUITS ARE WATCHED

(With Jack Votick).

New York, April 18.—Southpaw hurlers who can deliver the goods are a mighty scarce article in the major leagues these days. For the percentage of left-handed crop which makes good in fast company is small.

Yet the fork-handers who have class are so good that they have no trouble in competing in the upper 10 among pitchers of the two majors in effectiveness. Every major league club with the exception of the Athletics will carry at least one crack southpaw this year, and six clubs will depend largely on the boys with the freak delivery to carry them thru in the American league the Browns, White Sox and Yankees are strong in left-handers. Each club has three hurlers who come from the port side. Plank, Koob and Wellman of the Browns, and Cullip, Love and Morledge are all dependable slappers. The White Sox are banking on Russell, Williams and Danforth.

Benton, Sallee and Schupp of the Giants, make up a trio of port-siders who are hard to match anywhere, and the Braves have a crack set of southpaw wingers in Tyler, Allen and Neph. Smith, Marquard and Mails of the Dodgers, all come from the south side of the pitcher's box.

Recruits obtained by the port-siders are more ready to batting, as the records show. In 1916 five left-handers ranked among the first 10 pitchers in the American league for effectiveness. They were Ruth, Coleslake, Cumbie, Cullip and Wellman.

In the National league seven of the first 10 pitchers, as they were ranked for effectiveness, were left-handers. Ferdie Schupp, the youthful phenom of the Giants, was numbered among them, the left pitcher in only a few games. Rube Marquard, Rube Riser, Claude Cooper and Neph, Tyler and Allen of the Braves completed the septet.

In all there were 25 southpaws who worked regularly for the 16 big league clubs last season, and when one recalls that there were more than 150 pitchers all told, the southpaws are very much in the minority.

Chief among the portside hurlers who will endeavor to fool the batters this year are 28 pitchers, as follows:

## Sport Gossip

(By GRANTLAND RICE)

At the Edge.  
Where the mighty Shadow waits:  
Where the crimson flames draw near:  
And the storm is at our gates:  
With divided concentration,  
Each must grope across the bridge—  
What is sport or law or labor:  
In the glow of Viny-Eldge!

Once I thought of Cobb or Speaker,  
Once I turned to double play;  
Now a Shadow seems to stalk me,  
And the storm is at our gates:  
Where the hand of Fate seems reaching  
Thru the shades of forming lines,  
Where the air is full of murmur,  
And the sky is full of sign!

Once I felt the spell of April  
Thru its sunshine and its rain;  
Now the put no longer thrills me,  
And the fairway calls in vain:  
There are voices from the roadside,  
There's a whisper from the ledge,  
And the winds are rife with echoes  
As we wait upon the edge.

Johnson's Span.  
Walter Johnson began his eleventh year for league season with a shut-out attachment. There isn't a field or a kid in his delivery. The whole affair is a matter of perfect rhythm, and this means, as a rule, unusual length of service.

Johnson is now only 28 years old. As he takes the heat cars of himself and rarely worries under fire, he should have at least eight years more.

Washington may be a pennant contender, but there are seven ball clubs who will not be caught cheering on the days that find Walter's favorite son in the pit.

Big Men and the Game.  
Dear Sir: Military training is one of the best things in the world for developing a man. It is not very different from athletic training—take baseball, for instance. You will find that the big leagues are filled with big men.

One of the favorite ballads of war used to be: "We were ordered to charge, and not to stop, and we charged right into a whiskey shop." But prohibition has knocked most of the melody from this ancient refrain.

## GIANTS AND TIGERS HAVE PLENTY OF FUN

(By Associated Press Leased Wire.)

Detroit, Mich., April 18.—The training trip of the Detroit Americans and the New York National league baseball club, as chronicled by sport writers who traveled with the squads, reads like a history of fistic warfare.

Fire, Cobbs and Harzog had their historic fracas. It started on the ball field at Dallas. It was finished in a hotel room that night where the two stars, stripped of coats and vests, battled toe to toe until they were both exhausted.

Shortstop Fletcher and Outfielder Hellman became involved in an argument that lasted thru several games. At one time they talked about settling it with their fists but the battle never took place. Hellman claimed Fletcher tried to spike him in a game at Fort Worth and Fletcher charged that the Detroit was anything but gentle on the bases.

Later, Heinz Zimmerman, the Giants' turbulent third baseman, and Oscar Stanage, Detroit's giant catcher, engaged in personalities.

Zimmerman was hit in a game that Stanage caught. Umpire Brennan called a strike which Hellman thought should have been a ball. A bitter argument followed. It is claimed that the word-war ceased when Stanage stepped up to Zimmerman and whispered:

"Out out that stuff before it's knocked out of you."

The teams had several long railroad trips and managed to keep in good quarters their players in separate cars, so that the newspaper men with both clubs were between them and formed a sort of neutral zone.

## GRAVATH LOSES BATTING HONOR

Impossible to Name Champion Home Run Swatter of the Major Leagues.

## PIPP LEADS THE AMERICANS

(With Jack Votick).

New York, April 17.—Since Garry Cravath has showed up as a demon buster of fence the title of home-run king in the major leagues is a mooted question. Cravath, at his best, was a rip-scorer. For three straight seasons he hammered out four-hundred hits with a regularity that astounded the fans and basted the hearts of the pitchers. In 1913 Cravath batted 19 homers out of National league lots. In 1914 he came right back with 19 more to show that his performance of the previous year was not a flash in the pan. And then, in 1915, he smashed home 19 traditions of yesteryear by doing the home-run record of 1913 and 1914, the most he ever got in a season was 12 round-trip swats.

And now, with Cravath out of the home-run line, three swatmen are sharing the title of king of the home-run hitters. He topped his league in homers last season with a total of 13. But two National league players have an equal claim to the title, for Larry Robertson, of the Giants, and E. Williams of the Cubs both slugged out an even dozen circuit hits last year.

Perhaps some now slinger of the demon type will spring up to take Cravath's place. A glance at the National and American league records shows that the sluggers to Governor Tanager's circuit were either luckier, faced weaker pitching or were heavier sluggers than those in the American league.

Robertson and Williams, with 13 home runs each, head the list in the National league. Cravath comes next with circuit swats. Jack Wheat and Benny Kauff poked out nine apiece. Parkert and Stengel registered eight, and Carey, Slater and Markle were credited with seven all around.

In the younger league Frank Baker with 12 homers, ranks second in Wallie Pipp. Walter Schang and Oscar Felsch have seven each to their credit and Derrell Pratt, E. Smith, Grandy and Cobb smash each 10.

The total figures indicate one of two things—either the pitching in the National league is weaker than that in the American, or the old league is blessed with the heaviest sluggers. The National league poked out a total of 238 home runs last year, while 146 homers were made in the American league.

It is the general opinion that American league pitching is the answer.

## AMERICAN MARATHON IS WITNESSED BY BIG CROWD

(By Associated Press Leased Wire.)

Seattle, April 18.—The American marathon race, generally regarded as the champion long distance running event of the century, was witnessed by the twenty-first year over the roads between Ashland and this city today. Seventy runners from this country, Canada and Greece were entered and more than 10,000 spectators gathered along the 15-mile course.

The field contained several runners to have capable under favorable conditions of bettering the record for the event, a hour 21 minutes 15.4 seconds made by Michael J. Ryan of New York in 1912. Among them were Hans Kolchmans and Viller Kyronen, both of New York; Clarence H. Palmer and Arthur T. Roth, local runners, who won the event in 1911 and 1912 respectively; Hans Schuster, winner of the recent Bronx marathon; Edmund Markham of Montreal; and Michael J. Lynch of Washington, who finished sixth last year.

## WOMAN ENROLLS TIGERS

(By Associated Press Leased Wire.)

Detroit, Mich., April 18.—Credit for the movement which enrolled the entire Detroit baseball club as members of the American Red Cross has been given to a woman.

Mrs. Howard Ferguson, wife of the sports editor of a Detroit paper, has been a prominent local Red Cross worker. She recently introduced President Davis and Manager Jennings of the Detroit American in the relief work. They contributed, and the list quickly was completed by contributions from every member of the club.

City League Bowling Shows Some Erratic Tendencies in Games Shot at Sylvandell.

## SOME OF THEM BEAT 200

It was sort of an up and down night at Sylvandell last night, most everybody getting some good counts and some low ones. The team scores ranged all the way from the early 700 to proper 900 counts.

Troll of the Cadillac and Gabrielson of the Giants had a merry race for individual honors in the City league matches. Troll winning out with 234 for high and 610 for the route. Gabrielson was a pin behind for the route and had 210 for his best attempt.

Troll got his big count in the first game, when his team beat Mickey Kramer's Stars by three pins, 330 and 371. The Cadillac then went out and won two by comfortable margins.

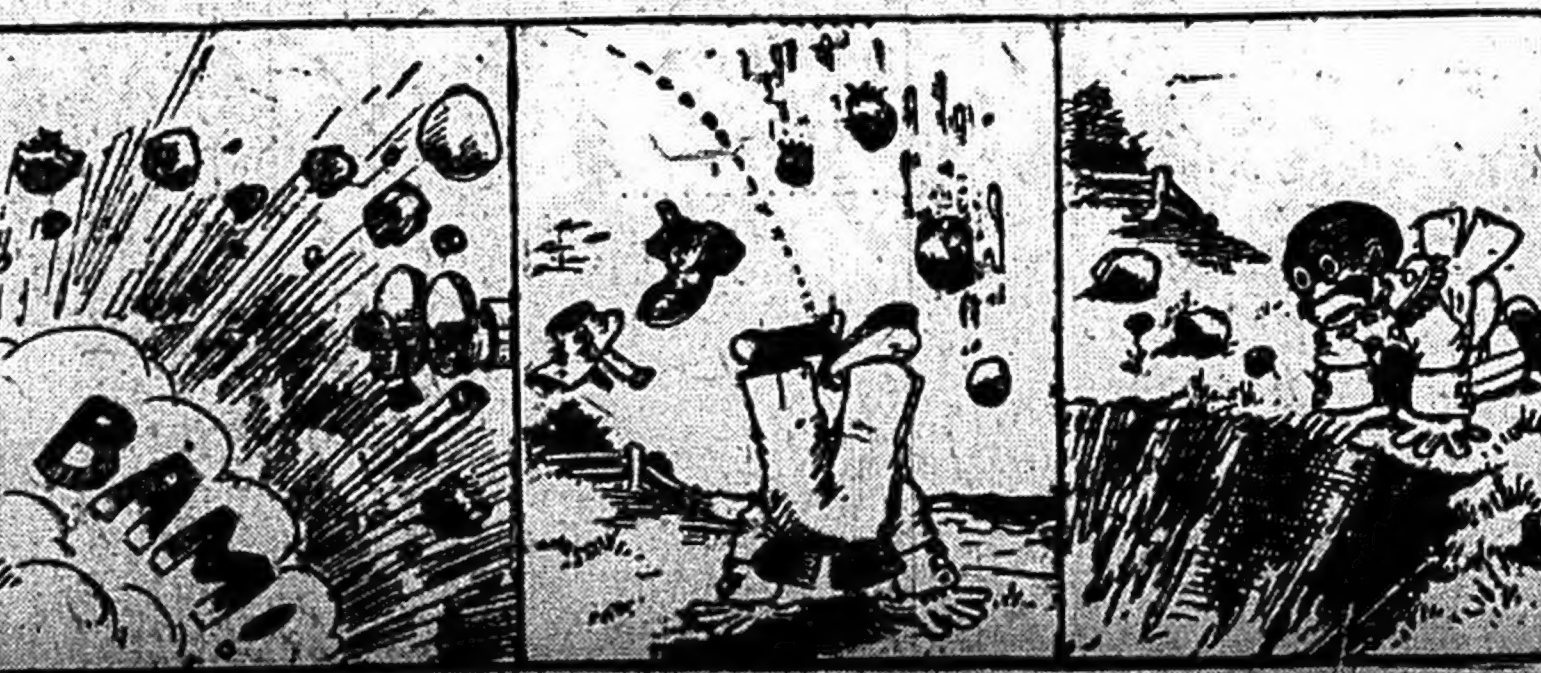

In the Giants-Grayhounds clash the Giants took the first game by 15 pins and then each team took a game on a 900 count.

## BATAVIA SCHOOL CADETS DRILLING

Sergeant Timmons of Riverbank Gives First Military Lessons to Squad Yesterday.

Twenty-four Young Men Out First Day Have in Full Out From Weatness.

Batavia, Ill., April 19.—Military training was started yesterday morning in the high school gymnasium under the direction of Sergeant Timmons, loaned by Col. George Fabian of Riverbank, Ill. For the past few months Sergeant Timmons has been drilling the cadets at the Riverbank Villa farm under the orders of Colonel Fabian. Mr. Timmons is a thorough instructor in this work and it will be an invaluable aid to the schools and to the young men who take this course of military training. In case the war continues for some time army will be made ready for the army or navy.

There were 24 young men out in the squad yesterday and the drilling consisted of various sorts of exercises. There will be drilling six days a week from 8 until 9 o'clock in the morning. Yesterday it was extremely warm and one pupil grew faint and two others stopped before the lesson was completed on account of weariness. Sergeant Timmons explained to the boys that they were not accustomed to the work. The three were in line again this morning.

Superintendent H. A. Storm has announced that all boys who are taking this training are given the privilege of being excused at 8:30 o'clock in the afternoon, but wishes to announce that in case they are tardy in attending training class they cannot enjoy this privilege.

Canvas Vote Tonight.

There is to be a special meeting of the city council tonight to canvass the city election returns. In yesterday's report of the election an error was made, the report stating that Clarence Hanson received only 266 votes, when it should have read 326 votes. He received 326 votes instead of the 266 he got. The confusion of the election time was the cause of the error.

Award Fire Barn Bid.

It is hoped that the bid for the new city fire garage will be handed to the city clerk so that they can be opened at the meeting of the city council Monday night and the contract awarded so that it can be built this summer.

Bone Is Re-elected.

Former Superintendent of the Batavia High School H. A. Bone is completing a very successful year as principal of the Sioux City, Iowa, high school, according to reports. He has been chosen to the position with an increase of \$300 in salary which is a very real expression of appreciation of his work done there. Mr. Bone writes that he and his family are enjoying the work in their new field.

School Election Next.

The school election Saturday promises to be lively in that there are four candidates seeking two places on the board of education. The popular sentiment is that Mrs. Charles Mohr will be chosen, as she has been a former member and the voters seem to believe that a woman is needed on the board. The other candidates seeking places on the school board are A. E. Davis, Dr. O. W. Hubbard and Andrew Barr. Dr. F. H. Daniels is the only candidate for the office of president of the board. Polls will be open from 5 to 7 o'clock Saturday afternoon. The voting place on the west side is the domestic science department of the schools in Batavia avenue, and on the east side the school building.

## Movie Notes

**"CAN'T HOLD \$60-A-MONTH JOB."**

"His Father's Son," a Metro production combining powerful dramatic action and the most delightful comedy elements, is at the Orpheum theater. Lionel Barrymore and Irene Howley are co-starred in this five-part feature production, which was written by Channing Pollock and Remond Wolf, and directed by George D. Baker and Rolfe Photography, Inc., to be released on the Metro program.

Adam Barron, disgraced because his son, J. Dabney Barron, seems to be worthless, discontinues his income, and bets the young man \$6,000 that he cannot hold a \$60-a-month job for 30 days. The boy takes him up, and with his valet starts off in his racing automobile to look for work. He and his valet take quarters in a cheap boarding house, and begin to read the want ads. This is the delightfully "different" beginning of "His Father's Son." It is just the kind of story that Channing Pollock and Remond Wolf like to write, that George D. Baker likes to direct, that Lionel Barrymore and Irene Howley like to act, and that the public likes to see.

Dramatic incidents come into the picture when Barron is set to watch the great emerald known as "The Lady from the Sea," when he catches Lord Lawrence, known to the English police as "London Larry," trying to steal it, and when he locks him in the safe he has been trying to rob.

**"The Silent Master."**

Robert Warlock's second Selznick-Picture, "The Silent Master," is now complete, and was shown privately to the Selznick department heads last week. It will be released within a few days. It is a story of modern life.

The scenes include the underworld of Paris, a palatial villa and luxurious mansions in New York.

Deeds of the Paris Apaches are reproduced from life by Leonora Perrot. The Unique Court of St. Simon, with its curious punishments, is a distinct novelty.

There are many spectacles, such as one showing a complete panorama of Paris from Montmartre.

There are two love stories, centering around one man.

The plot combines adventure among the desperate criminals of Paris, the mystery of the secret court, and the romance that is always associated with the French capital.

Mark Sennett employs 450 people of all crafts, in making Keystone comedies. Some pay roll.

Sennett is going to put out an animated weekly.

# EDUCATOR SHOE

YOUR feet can't be happy when you crowd them into pointed, pinching shoes—shoes that cause corns, bunions, callouses, flat-feet, ingrowing nails.

They can be and are happy and healthy when you slip them into a pair of Educators—the shoes built by orthopaedic experts to "let the feet grow as they should."

FOR MEN, WOMEN, CHILDREN

Bring your whole family here for Educators today. Because your whole family needs 'em!

The mark EDUCATOR branded on the sole of shoe guarantees the correct orthopaedic Educator shape. Made only by
